Windsor Chair
with NHC Cyclo-Therapy®

ADJUSTAMATIC
COMFORT YOU CONTROL

Windsor

Our beautiful Windsor riser recliner chair has been designed with your comfort and independence in mind.

Featuring a rise and recline electrical motor function, you can easily move in and out of the chair with minimal effort. With the simple touch of a button on a remote control, the riser chair can be manoeuvred into a range of different positions in one smooth motion for a superior seating experience.

As well as having sumptuously soft padding for added comfort, the chair features an attractive design and is guaranteed to make a style statement in your home. The Windsor chair also comes with our built-in NHC Cyclo-Therapy® located in the backrest, seat and footrest. Using a three-way pulsating technique, the therapy comes with a choice of settings and is medically proven to ease away aches and pains, improve circulation and boost your health while you sit back and relax in your chair. The Windsor riser recliner chair is available in an array of fabrics so you shouldn't struggle to find something to suit your individual needs and preferences.

NHC Cyclo-Therapy®

Our medically proven NHC Cyclo-Therapy®, used within healthcare and backed by over 25 medical papers, delivers both pain-relieving and circulation stimulating therapy. The cycloid action consists of a multi-directional wave moving up and down, sideways and in a circular direction simultaneously.

The result is a deep penetrating therapy, providing a multitude of benefits with no harmful side effects.

Windsor chair in Derwent Truffle
